

Old Dominion University Communication ePortfolio Project

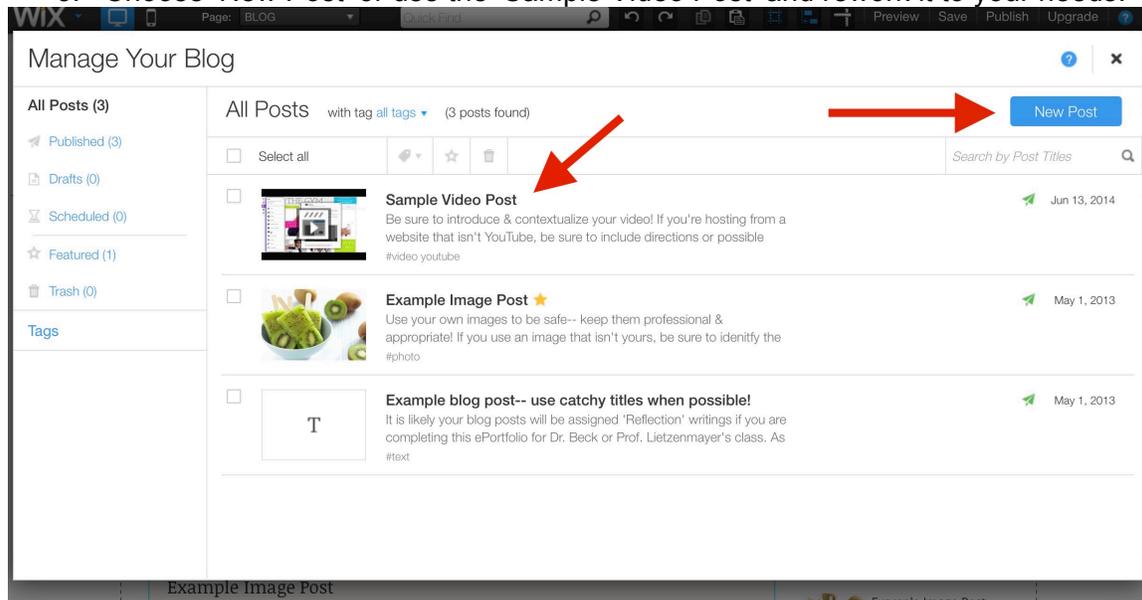

This resource is for students that are required to post the video as a Blog post or Course Projects page.

Uploading a Video to your WIX Blog

1. Starting from within the Editor Mode of WIX, go to the page you want to edit, for this resource, I will focus on adding a Video Blog Post first.
2. Click on your Blog Feed and choose 'Add & Edit Blog Posts'.

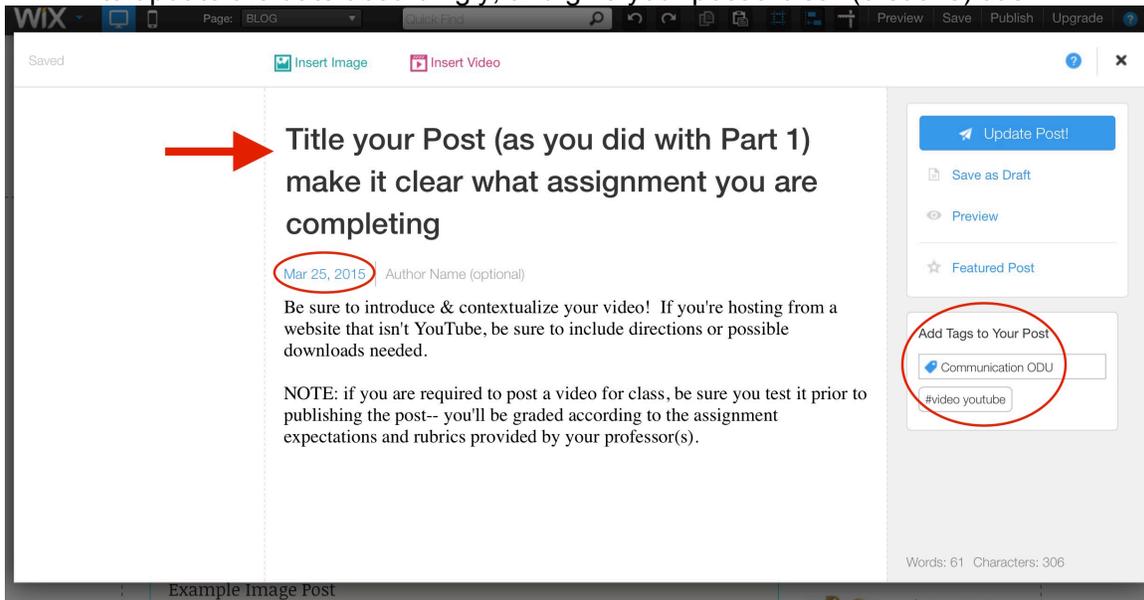

3. Choose 'New Post' or use the 'Sample Video Post' and rework it to your needs.

4. Tips for Success: Use the post to the fullest—add tags of your choosing, be sure to update the date accordingly, and give your post a clear (creative) title.

5. Then, choose 'Insert Video' (1), copy/paste your YouTube link into the space provided (2), and choose 'Update Post' (3). This will save your work, and you can go back into the post to edit as needed.
 - a. Remember to introduce your video with a 1-2 paragraph summary of what you are seeking to accomplish within the assignment (what you learned, what class it was for, etc)!

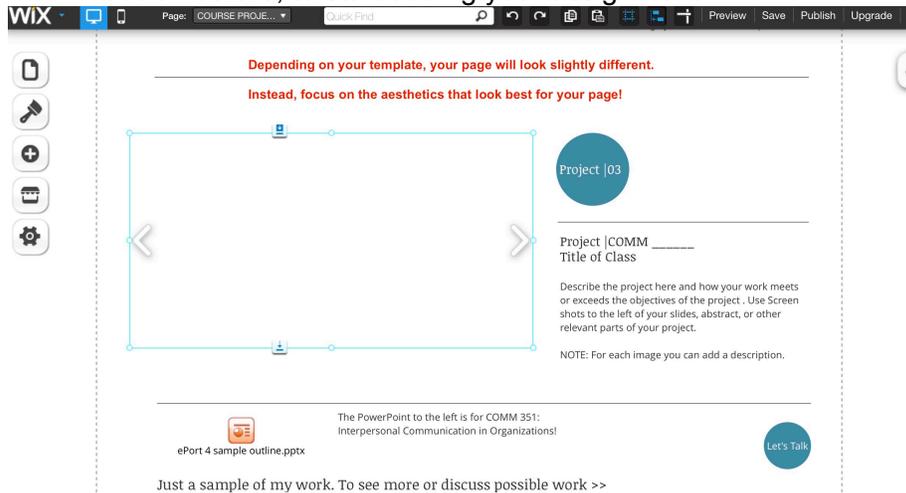

6. Be sure to click 'Save', then 'Publish' to share your work and complete the assignment. Submit your Wix link as directed by your instructor.

Uploading a Video to your WIX Course Projects Page

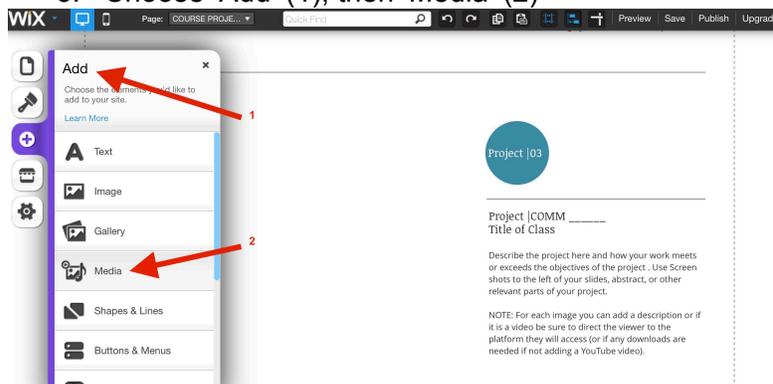

1. Starting within 'Edit Mode' again, choose the spot, or use the placeholder you added before, to start adding your assignment.

2. Again, depending on your template you might need to remove placeholder images or other icons as needed. Tip for success: as always, be sure to introduce your work!

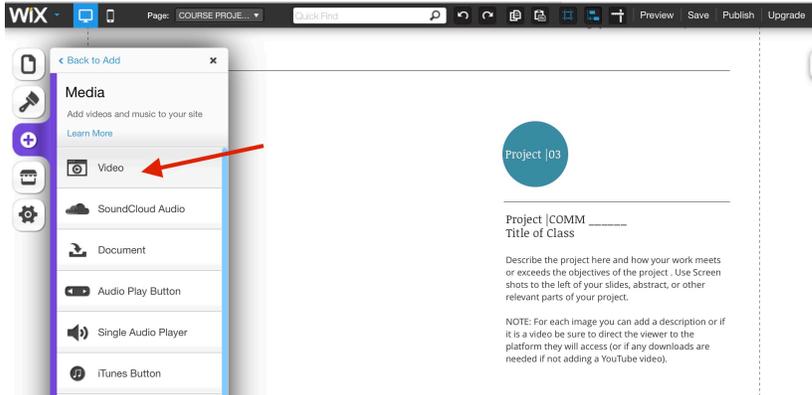

3. Choose 'Add' (1), then 'Media' (2)

4. Choose 'Video'

5. Choose 'Settings'

6. Copy/Paste your YouTube link into this space highlighted below & click 'Update'

7. Be sure to click 'Save', then 'Publish' to share your work and complete the assignment. Submit your WIX link as directed by your instructor.
